First look—end result, one word sums it up. With star power straight from the stratosphere, the range of smooth and sublime Acrylic finishes pair with trend-setting textured Melamines, taking design to a new height of contemporary ambiance. Families and fashionistas alike will love the interplay of color and texture when it’s combined with form and function.
Live each day to its fullest in a space that works hard, making it easy to have an attitude of gratitude. A generous island is perfect for prep, inviting friends and family to gather round, while the beautiful banquette extends an offer to sit and mingle. Open shelving and aluminum doors add the perfect accent for delightful living.

happy
It’s a bright new day when you can make any space work for you, with personality! Kitchen Craft’s hundreds of combinations help you design your look down to the finest of details. Here, the kitchen is opened to the passage of light both inside and out.

Sunny

Evident style. The Salem shaker cabinet door though simple plays to any venue. A smooth complement in everything from farmhouse kitchens to downtown lofts or glittering entertainment rooms.

Bright, Alabaster finish provides a stylish, bright white look on this maple door that is not only beautiful but also durable and full of character.

Sparkle, In all the right spots. Glass doors become a unifying feature, both defining the space and connecting it to dining area and window views.
Essential, but not basic, describes daily life in this easy-for-living workspace. Deep drawers bring every item directly to you with a fingertip pull of the decorative hardware. Open for family discussion, a peninsula is the perfect spot for multiple tasks, letting the cook keep tabs while multi-tasking in the kitchen.
The beauty of pure function, in clean lined forms. The ultimate for the lover of sleek refinement, Summit is a sleek-style door with a touch of tailoring that adds a contemporary richness.

**Smooth.** Acrylic finish provides a smooth texture and high-gloss appearance. Available here in light gray and a soft shade of blue, this finish gives a mirror-like appearance to your kitchen space.

**Sleek.** Blending in never looked so good, custom doors can be added to appliances such as refrigerators to provide the modern, unique design you’ve always dreamed.

**Convenient.** Hardworking spaces speak to sensibility. Tall cabinets and easy to access drawers in well-located areas is a no-nonsense solution, making short work of storing items that seem to multiply incessantly.
Euro-flair, exotic woodgrain looks, and the sweep of urbane living all made possible by the smooth authority of thermofoil. A warm, quiet, yet highly distinctive look. Pamli’s sophistication and flat panels are your necessary ingredients for efficient storage solutions, glamorous sightlines and a vision of modern living.
Contrasting colors and smooth surfaces anchor the trend forward, eco-friendly bamboo cabinetry, beautifully paired with a strikingly crisp acrylic white. Who wouldn’t love spending time in this pretty, uncomplicated space?

Well-planned storage, with frequent-use items close at hand makes perfect sense for any kitchen. Make the most of vertical space with taller height wall cabinets, and add deep drawers or sliding shelves to base cabinetry for the utmost in accessibility.
inviting

Shaker-inspired styles have a lovely adaptability, making them useful for traditional or transitional styles. Here, symmetrically matched pairs of cabinets, open shelves and windows create a setting of simple lines in which the dramatic hood has the presence of a great piece of art.

Linear. Clean lines with a horizontal vibe are hallmarks of design-style for today. Open Shelving makes a simple statement while keeping items close at hand for everyday living.

Bold. Good ventilation is a must-have in any kitchen, and the bold lines of our beautifully designed wood hood is the perfect accent for any cooking space.

Easy. Top hinge cabinetry offers the very best in accessibility and maintains the strong horizontal lines so popular today. Stay-put hinges answer the call to action, until your task is complete.
Smooth surfaces paired with warm woods create a modern look combined with everyday practicality. Here, the setting of simple lines and open space let your view to the world take center stage. Function is key with a tall storage tower and expansive surfaces ready to work hard so you don’t have to.
Two large islands establish the scale, detail and sculptural quality of this kitchen and anchor its open flow. Brookfield's profiled panels on cabinetry doors display the richness of the Espresso finish against the silvery paleness of counters and surfaces. Glass doors add sparkle and enhance the open feeling.
Fun. Think anti-vintage. These are not your grandmother’s glass door knobs. Glass cube pulls with glass and brushed nickel bases make spots of cool on hot red doors. Their clarity works in quantity.

Variety. Textured glass doors with aluminum frames bring subdued sparkle to a streamlined kitchen. Our up-to-date embellishments are your key to making a room that is both cutting edge and highly personal.

Verve. Some cabinets get toe kicks, some get posts, some get legs. This kitchen gets it all: the aluminum square leg adds variety and punches up the interplay of tile, gloss and vertical woodgrain work area.

Adept use of textural contrast and daring color makes a striking statement. Here, Thermotool styles harmonize in two finishes to be confident and carefree. Our distinctive stainless steel hood punctuates the open layout for a signature that’s both practical and dramatic.
efficient

Everyone longs for a perfect kitchen space. No matter what your allocated area is, Kitchen Craft can make your dreams come true. To make your kitchen truly stand out, this island is everything you want it to be, a prep station, dining area, and perfect for entertaining.
Nothing says welcome home quite like a timeless white paired with rich wood tones—filled with warmth and texture. Envision your life brimming over with all of the comfort you desire.

contentment
other rooms

Cabinets make more than kitchens. Any room in your house can have designer flair, with the Kitchen Craft versatility of styles, finishes and details. The soft coloration and subtle grain variation of Silt is an ideal complement to the contemporary lines and unique spaces presented by open plan living. With room to spread a project out, this home office matches brains with beauty.
Organize. Designating areas specific to task is key to any efficient work area. A wrap station is ideal for materials pertaining to crafting and holiday events, with frequently used items visible and close at hand.

Togetherness. A match made in heaven. Integra’s smooth Summit door is the perfect partner for Aurora’s woodgrain textured thermofoil on Soho. Guaranteed to live happily ever after.

Handy. Kitchen Craft gives you a place to keep everything right where you need it! Open shelves and stacks of drawers let you customize storage of items just the way you like. If only we could guarantee that you’ll put them back where they belong!

The joy of pure function is the lifeblood of rooms that were built to multi-task. Combining materials and colors that throw a cool vibe and lets your spirits soar every time you enter. Make the most of any multi-purpose space with full access cabinetry, meant to tackle any project at hand.
How nice would it be to shape a room to fit your needs! Imagine—a laundry room that doubles as command central, where a pantry, homework desk and overflow traffic live in peaceful harmony. Or what if command central occupies a corner of your living/dining space? Counter space becomes the perfect buffet or party bar, just waiting for friends to gather around!

coexist
Relaxed and renewed. Every day can feel as serene as if a spa visit has just occurred. The woody richness of Flint, captured in the ease of thermofoil gives every day a sense of modern purity. Expansive counter space starts each morning with calm, and evening ends with order amid spacious storage, elegantly tucked away.
A perfect fit, filled with exacting details that make it yours alone. Choose design elements from Kitchen Craft to emulate your personality and support your mantra for personal style. With bifold doors for easy opening, granting a full view of what awaits, to stylish punctuation with metal accents, we make it easy to make it yours.

Intentional style.
A chair could suffice to hold a stack of shirts. Planning to store them stylishly, while providing a place to pack them adds a whole different facet to the relationship with your wardrobe!

Statement pieces.
No look is complete without the tie or shoes that demand a second look. Similarly, our selection of aluminum frames and glass inserts, paired with striking hardware insist on commanding your attention.

Vantage point.
Seeking what eludes you has never been easier. Doors lift up and open wide for a full view of interior contents with easy accessibility. Even better—the metal tambour and bi-fold doors are supremely stylish when closed.
Your bathroom can be a focal point as well. With this hanging vanity set and U-shaped drawers, Kitchen Craft cabinets can be styled with an eye on function combined with a striking, unique design. You can personally create yours unlike any other found elsewhere.

The sophisticated persona of Soho is the perfect venue for showcasing the textured thermofoil wood grain of Ore. Sleek lines and streamlined, modernist décor are lockstep with Ore’s depth and coolness and adds a clear silhouette against contrasting textures and colors. Start your day with a little bit of drama, in a very refreshing way.
Your new room should contain more than gorgeous surfaces. It should also enhance your life. Starting with the full-access frameless construction of Kitchen Craft’s European style cabinets, we add organization options galore, to give you so many ways to live easier. From silverware to supplies, paper trails to mixing bowls; it’s all right there. Why struggle to find what you need, when you can have things right at your fingertips?
