Casual comfort

From the soft taupe paint to the beach planked floor and white cabinets, this shaker kitchen is bathed in a warm, monochromatic colour palette. This was a purposeful design choice as the goal of this renovation was to create a space that is open and welcoming for big family get-togethers.

01

Double Duty. This island is all business in the front with the dishwasher conveniently placed next to the sink. To save counter space, the microwave has been built into the island as well. The overhang on the back comfortably seats guests for entertaining.

02

Kitchen Party. This little nook makes an excellent beverage centre. The tall wall cabinets feature glass doors that allow the homeowner to display their beautiful serving dishes and stemware.

A character study

In this kitchen, the homeowners desired a modern take on the rustic farmhouse style. The pairing of the Pearson shaker door style with the Weathered Slate finish brought this look together. The hand brushed technique used to create this finish is in keeping with the grey trend of today, yet the rich character from the brush strokes offers a comfortable heritage feel, adding to that country flavour.

The modern rustic feel is further complemented with the sleek look of the open shelving and this stunning wood hood. Its presence grounds the room while exuding charm.

Beach house

No matter where your home is, that relaxed oceanside vibe is easy to achieve. The cabinetry in this galley style kitchen is a mix of cool Starless blue and a sun-kissed Driftwood finish. Together, these hues create an organic palette that is reminiscent of sand, stone and water.

01

Tiered Cutlery Drawer.

Every inch of this cutlery drawer is utilized! The top tray slides back to reveal the bottom of the drawer, so that all of your cutlery is in full view.

02

Base Pantry Pull-out.

This pull-out cabinet fully extends to reveal the entire contents. Adjustable shelves allow you to accommodate the varying heights of your pantry items

03

Lazy Susan.

Having functional corner storage is a must! Whether you are storing pots and cookware or need a dedicated pantry, each shelf spins 360° for complete access.

Clever efficiency

Kitchen Craft cabinets have the design flexibility to create beautiful functional kitchens at any size. This u-shaped kitchen features several deep drawers that provide an abundant amount of storage. To maximize every square inch of space, shallow cabinets have been placed at the end of each cabinet run that face the adjacent living room. This provides additional storage as well as a soft transition between living spaces.

DESIGN TIPS

Make a compact space smart and stylish

1 Keep It Light. If you have a short window like this and space is premium, wall cabinets can be placed above. Frosted glass doors create the illusion that the window extends upward. Lighting inside the cabinets also creates a nice glow at night.

2 Take A Seat. Extending the countertop on your peninsula is a great way to create an eat-in bar area. It's the perfect spot for meals on-the-go or for the kids to do their homework.

URBAN
Rustic charm

door style: Keelie
species: Maple
finish: Whitecap

door style: Keelie
species: Rustic Alder
finish: Sienna

Inherent warmth

This urban rustic look came together by pairing the Keelie door style in two distinct finishes. The perimeter of the kitchen is featured in a clean, bright painted white, and the rustic aspects are brought in with the alder island and shiplap rangehood. The alder species features distinct markings and knots offering an endearing, lived-in character.

This kitchen features a series of smart pull-outs that offer dedicated storage while adding efficiency.

01 Knife Block Pull-out. This handy knife pull-out pantry features two knife blocks providing safe storage for your specialty knives. It also has four stainless canisters that keep utensils in full view and easy to reach. Four cutting mats are housed in a slot in the centre of the top shelf.

02 Pull-out Shelves. Having a pantry on either side of the refrigerator creates a built-in effect. Each pantry features roll-out shelves that pull out completely to reveal the contents of each shelf.

03 Pot and Pan Pull-out. This two-tiered shelf unit fully extends to reveal your cookware. Lids and cookie sheets are easily found in the side compartments.

species: Acrylic

finish: Fossil, Wired Cobalt and Wired Mercury

Bold choices

This euro-inspired kitchen features clean lines and sleek acrylic cabinet doors. The refrigerator has been cleverly disguised with appliance panels. This allows the fridge to blend in seamlessly without interruption for the eye.

The use of blue in this kitchen provides a punch of colour while defining specific cooking and entertaining zones.

FINDING YOUR LOOK

Two standout kitchen moves.

1

A Chef's Dream.

Having the cooktop in the island allows the host to be centrally located and interactive with their dinner guests.

2

Entertainment Centre.

With the back of the island facing the adjacent living room, it only made sense to thread the blue into the beverage bar. Decorative floating shelves between the full height wine fridge and tall pantry keep glasses within easy reach.

Modern farmhouse

The best memories are often made over a meal. Make your island equally unforgettable with a statement piece like this. The artisan brush strokes of the Weathered Slate finish give this island a sense of history, like it's always been there, yet the aluminum glass doors add a modern edge.

01 A Little Bit Country. The beefy posts and open shelving at the end of the island give the appearance of a farm table.

02 Think Differently. Deep drawers are an optional location to house your plates. Drawer plate organizers keep plates in place and allow you to easily carry the stack right over to the table.

There's always room for one more.

If you have a big family or piles of friends who love to drop by, consider incorporating banquette seating into your kitchen. The benefit of opting for bench seating is that there's room for everyone to congregate around the table.

KITCHEN

This stunning kitchen celebrates the core principals of Scandinavian design with a clean-line, minimalistic setting that seeks to combine functionality with beauty.

To balance the bright white walls, a nature inspired colour palette was selected for the cabinetry featuring a soft watery blue and a warm light toned maple island.

Additional texture was threaded through the kitchen by lining maple Frappe within the wall open shelf area and behind the glass doors.

Your sanctuary

Rejuvenate your bathroom with a luxe vanity that is not only beautiful, but functional too. The modular components used to create this wall hanging vanity allow you to create the size and configuration needed to suit your personal space.
